Objective

Dynamic Full Stack Developer with 2.5 years of experience in designing and developing scalable, efficient applications. Passionate about coding and problem-solving, with expertise in modern web technologies. Seeking to leverage my skills in a challenging environment that fosters growth and continuous learning.

Skill

- **Programming Languages:** JavaScript and C
- **Frontend Technologies:** React.js , React Native (Basics) , React Hooks , HTML5 , CSS3 , Tailwind CSS , Redux , Redux -Toolkit , Bootstrap
- **Backend Technologies:** Node.js , Express.js , Microservices Architecture,Clean Architecture
- **Databases:** MongoDB
- **Version Control:** Git , GitHub
- **Build Tools:** Parcel (Bundler) , Webpack
- **Testing:** Jest (Unit Testing) , Postman
- **Project Management:** Agile Methodology
- **Authentication & Authorization:** JWT
- **Payment Integration:** Stripe
- **APIs:** RESTful API Development

Experience

- **Fieldiva** March 2025 - Present
Full Stack Developer
 - Developing backend APIs using **Node.js, Express, TypeScript**
 - **Implemented gRPC-based** microservice communication replacing REST (Axios) internal
 - **Followed Clean Architecture** principles to maintain modular, testable, and maintainable code structure
 - Contributed to dynamic backend-driven Custom Form Builder system
 - Worked on map-based task visualization and field user tracking modules
 - Integrated secure service-to-service authentication using **JWT**
 - Built and maintained **Redux-based** admin portal features
 - Implemented CSV export and file upload features
 - Contributing to multi-tenant **SaaS architecture** (Superadmin, Organization, Admin, Field User apps)
- **STARSHOT DEVELOPMENT PRIVATE LIMITED** April 2023 - August 2024
Software Engineer
 - **Developed RESTful APIs** and optimized **MongoDB queries** to handle **large datasets**, improving response times.
 - **Collaborated with frontend developers** to create seamless UIs using **React.js**, enhancing user experience and engagement.
 - **Implemented JWT-based authentication**, fortifying security across multiple applications
 - Led the introduction of **unit testing** with **Jest**, enhancing code quality and reducing production defects.
 - **Worked closely with cross-functional teams**, following **Agile methodologies** to ensure timely project delivery.

KEY PROJECTS

Reliance Jio Project

- Developed and optimized complex **MongoDB queries** for better performance.
- Designed and implemented **REST APIs** to integrate backend services with frontend systems.
- Wrote and maintained **unit tests with Jest** to ensure code quality
- **Technologies Used:** MongoDB, Node.js, Express.js, Jest, REST APIs

Starshot Payment Module

- **Integrated Stripe payment processing** into backend logic, simplifying subscription management.
- **Collaborated with frontend developers** and conducted thorough testing for **reliability and security**
- **Technologies Used:** Express.js, MongoDB, Stripe, REST APIs.

• LUMINAR TECHNO LAB

Nov 2022 - April 2023

Intern – Full Stack Developer (MERN)

- **Designed and implemented full stack solutions** with a focus on **scalability** and **usability**.
- **Gained experience in Agile methodologies** by actively participating in **sprint planning, stand-ups, and reviews**.
- **Worked on both frontend and backend components**, ensuring smooth integration and delivery.

Projects

• Fieldiva

- **Fieldiva is a SaaS-based** field workforce management platform that enables organizations to assign, track, and monitor field users through real-time map visualization and dynamic mobile form submissions.
- Contributed as a Full Stack Developer by building backend APIs using Node.js, Express, and TypeScript, implementing **gRPC-based microservice** communication, and developing **admin portal features** including **task management, map integration, and dynamic** form UI components using React.

• SOURCER APP

- **Built a dynamic job portal** using **React.js** for the frontend and **Express.js** for backend logic.
- **Developed an admin management system** using **AdminJS** to manage job listings and users effectively.
- **Technologies Used:** React.js, Express.js, MongoDB, AdminJS, REST APIs

• WOOSLA APP

- **Created collaborative features** that facilitated communication among users and organizations.
- **Ensured secure data handling and enhanced platform usability** through API integration.
- **Technologies Used:** React.js, Express.js, MongoDB, REST APIs

• CONTACT MANAGEMENT APP

- **Developed a CRUD application** with **Angular** and **Express.js** to manage and store contacts efficiently.
- **Technologies Used:** Angular, Express.js, MongoDB, REST APIs
- <https://github.com/Shahnas-P/contact-management.git>

Education

- **Luminar Technolab (NACTET Certification)**
Certified Full Stack Developer (MERN)

2022

- **Calicut University**
Bsc physics

2019
